

**WILLOW BEACH AND LAKE SIDE
COMMUNITIES WATER AND SEWER
PROJECT**

The following information is provided as a **general guideline** for installing the water and sewer lines from the property line into a dwelling. It is strongly recommended that a licensed plumber and/or licensed drain contractor make the pipe connections. There may be additional code requirements in order to complete the work. Please read the following guidelines and direct your

date that the property owner receives not

b) The Building Inspector and the Waterworks Supervisor shall confirm inspection of

Consult with a professional plumber to evaluate the existing plumbing. A separate Plumbing Permit will be required for any upgrades, additional fixtures and installing stack vent and fixture traps. The minimum cost for a Plumbing Permit is \$50.00.

F STACK VENTING AND TRAPS

All plumbing systems require venting and fixture traps. Where a stack vent is being installed in an existing building, the stack vent may be erected outside the building provided.

If the well complies with the Ontario Water Resources Regulation 903 or is a properly maintained well, a well installer c
