

## **Udora Gravel Roads Upgrades - Preliminary Design Notice of Public Information Centre**

### **Background**

The Town of Georgina formally assumed the roads in the Hamlet of Udora on June 8, 2022. The Town is now looking to upgrade the roads to a four-season gravel standard to provide a higher quality road and to improve local drainage. Jacobs has been retained for Consulting Engineering services consisting of field studies, an evaluation of road design alternatives, and preliminary design. The project includes the roads indicated on the map and totals approximately 7 km of roads.

### **Study Process**

The Project is following the Municipal Class Environmental Assessment Schedule A+ process. Schedule A+ activities are exempt from the Environmental Assessment Act (EAA); however, require the public be advised of the project prior to implementation. Although the project is exempt from the requirements of the EAA, the Town is seeking input from the local residents on the design approach.

### **Purpose of Notice**

All interested persons are invited to provide input to this project via a Public Information Centre (PIC) to be held on **June 28, 2023** from **6:00pm to 8:00pm** at the **Udora Community Hall, 24 Victoria Road, Udora**. The purpose of the PIC is to present the progress of the project to-date, describe the existing conditions within the study area, and seek community feedback on the evaluation of road upgrade options and the preliminary set of preferred options that have been identified. All comments received will be carefully considered in refining the preliminary preferred options to reach the final recommended approach to road upgrades.

### **Project Contacts**

If you would like to be added to our project mailing list or have project-related questions, please contact the Town and/or consultant as noted below:

#### **Town:**

Owen Sanders, Senior Project Manager  
Operations & Infrastructure  
Town of Georgina
