

GEORGINA

Sept. 02, 2025

Notice of construction Golfview Crescent watermain replacement

The Town of Georgina will be conducting watermain infrastructure improvements on Golfview Crescent, from Wood River Bend to the east dead end, as shown on the map below. The existing watermain at the end of your street has reached its service life and currently terminates in a dead end. We will replace the watermain and extend it into a loop, which will improve water quality and water circulation, as well as reduce water loss and operational costs from daily flushing.

The contractor N.S.J. Waterworx Group will begin watermain work the week of September 8, with an expected duration of approximately two weeks. Once the watermain work is complete, Lisbon Paving Co. Ltd. will begin road repaving in your neighbourhood. All construction is anticipated to be completed by October 2025.

What can you expect?

- Work hours: Work will take place between 7 a.m. to 7 p.m. Monday to Friday, with occasional work after hours and on weekends as required.
- Water service disruptions: The water supply to your property may need to be temporarily shut off to complete construction. If this becomes necessary, the contractor will provide 48 hours advance notice.
- Road access: To complete the work in a safe manner there will be temporary road restrictions. Access for emergency vehicles will be maintained at all times.
- Driveway access: The contractor will notify you in advance if any temporary restrictions to your driveway access are needed.
- Noise and dust: Due to the nature of the work, there will be construction-related noise and dust, though every effort to minimize this will be made.
- Restoration: The work area will be restored to current conditions at completion of the work.

Thank you for your patience while we complete this important construction project. If you have questions about the upcoming work, contact the below or visit: georgina.ca/QueenswayWatermain
