#### **Maple Lake Estates Solicitor Response**

My client is prepared to amend the undertaking I gave you below on the following basis.

Without prejudice to our legal position, our clients agree not to cut any trees on site, without providing your firm with 15 (fifteen) days written notice. This is more than sufficient notice to enable you to bring your injunction, if you deem necessary, upon receiving notice. If the town insists on proceeding with an emergency injunction motion despite this more than reasonable undertaking, we will rely on this correspondence in court and seek our costs for having to prepare and attend.
