The excitement is building in Georgina *Town launches Building Georgina to highlight capital projects*

Georgina, ON – The excitement is building in Georgina about the future. The Town has launched *Building Georgina* to highlight major capital projects that are proposed and underway. The goal of the initiative is to keep residents, businesses and visitors informed about ongoing progress, have information easily accessible and promote public engagement opportunities.

“Building Georgina is about responsible planning for our growing community, ensuring we have the infrastructure, programs and services to meet the needs of residents and businesses today and tomorrow,” said Mayor Margaret Quirk. “We are focused on our future, ensuring our potential is realized and that we are providing a high quality of life for everyone.”

A dedicated Building Georgina webpage is available on the Town’s website providing a one-stop area for updates, reports, questions and answers, and upcoming engagement opportunities. Information on the following projects is also being circulated to Town facilities, and communicated via online and in print.

Multi-use Recreation Complex (MURC) – It will be a community space for the whole family. The MURC is anticipated to feature a full gymnasium, lap and leisure pool, seniors and youth space, library branch, and park playfields. Ninety per cent of the funding is provided by Development Charges paid for by developers.

New Civic Centre – The new Civic Centre will meet the current and future needs for the Town, and the new space will allow staff to provide better customer service and add much needed public-use areas. It will be more than a Town Hall – it will become a hub for the entire community.

Pefferlaw Fire Station 1-8 – A commitment to building a healthy and safe community to serve the needs of the community, it also preserves the past by incorporating Cooke’s United Church into the design. The new station will allow Georgina Fire and Rescue Services to continue to provide a high level of service.

West Park Redevelopment – A multi-use outdoor space for the whole family, it is anticipated to feature premier lit ball diamonds, a splash pad, playgrounds, multi-use courts, soccer and access to the trail system.

Sutton Community Park – Destined to become an exciting and accessible park, as well as a community gathering space for friends, neighbours and families. It is anticipated to have playgrounds for all ages, water play, multi-use court(s), community garden areas and access to the Hodgson Trail. Ninety per cent of the funding is provided by Development Charges paid for by developers.

Link Phase 2 and 3 – A community gathering and collaborative learning place. Programs and services focused on health and wellness, arts and culture, youth, recreation, job training and more.
