3.4.3 Hamlet Policies

For lands within Hamlets in the Protected Countryside, the following policies shall apply:

1. Hamlets, as identified in municipal official plans and within their approved boundaries as they existed on the date this Plan came into effect, continue to be governed by municipal official plans and related programs or initiatives and are not subject to the policies of this Plan, save for the external connections policies of section 3.2.5. This Plan permits infill and intensification of Hamlets subject to appropriate water and sewage services.
2. Outside of specialty crop areas, minor rounding out of Hamlet boundaries at the time of municipal conformity is also permitted in keeping with the character of the Hamlet. This rounding out is only permitted subject to the infrastructure policies contained in section 4.2 of this Plan and municipal official plans.
