The Sharing Economy

- The “*sharing economy*” is an umbrella term which describes a wide variety of economic activities that have been made more accessible through technology. The common element is that they enable individuals to “*share*” their personal assets or skills.
- Two well-known digital platforms are *Uber*, in the transportation market, and *Airbnb*, in the STRA market, but there are sharing economy platforms in nearly every economic sector. The Province has defined the sharing economy as follows:

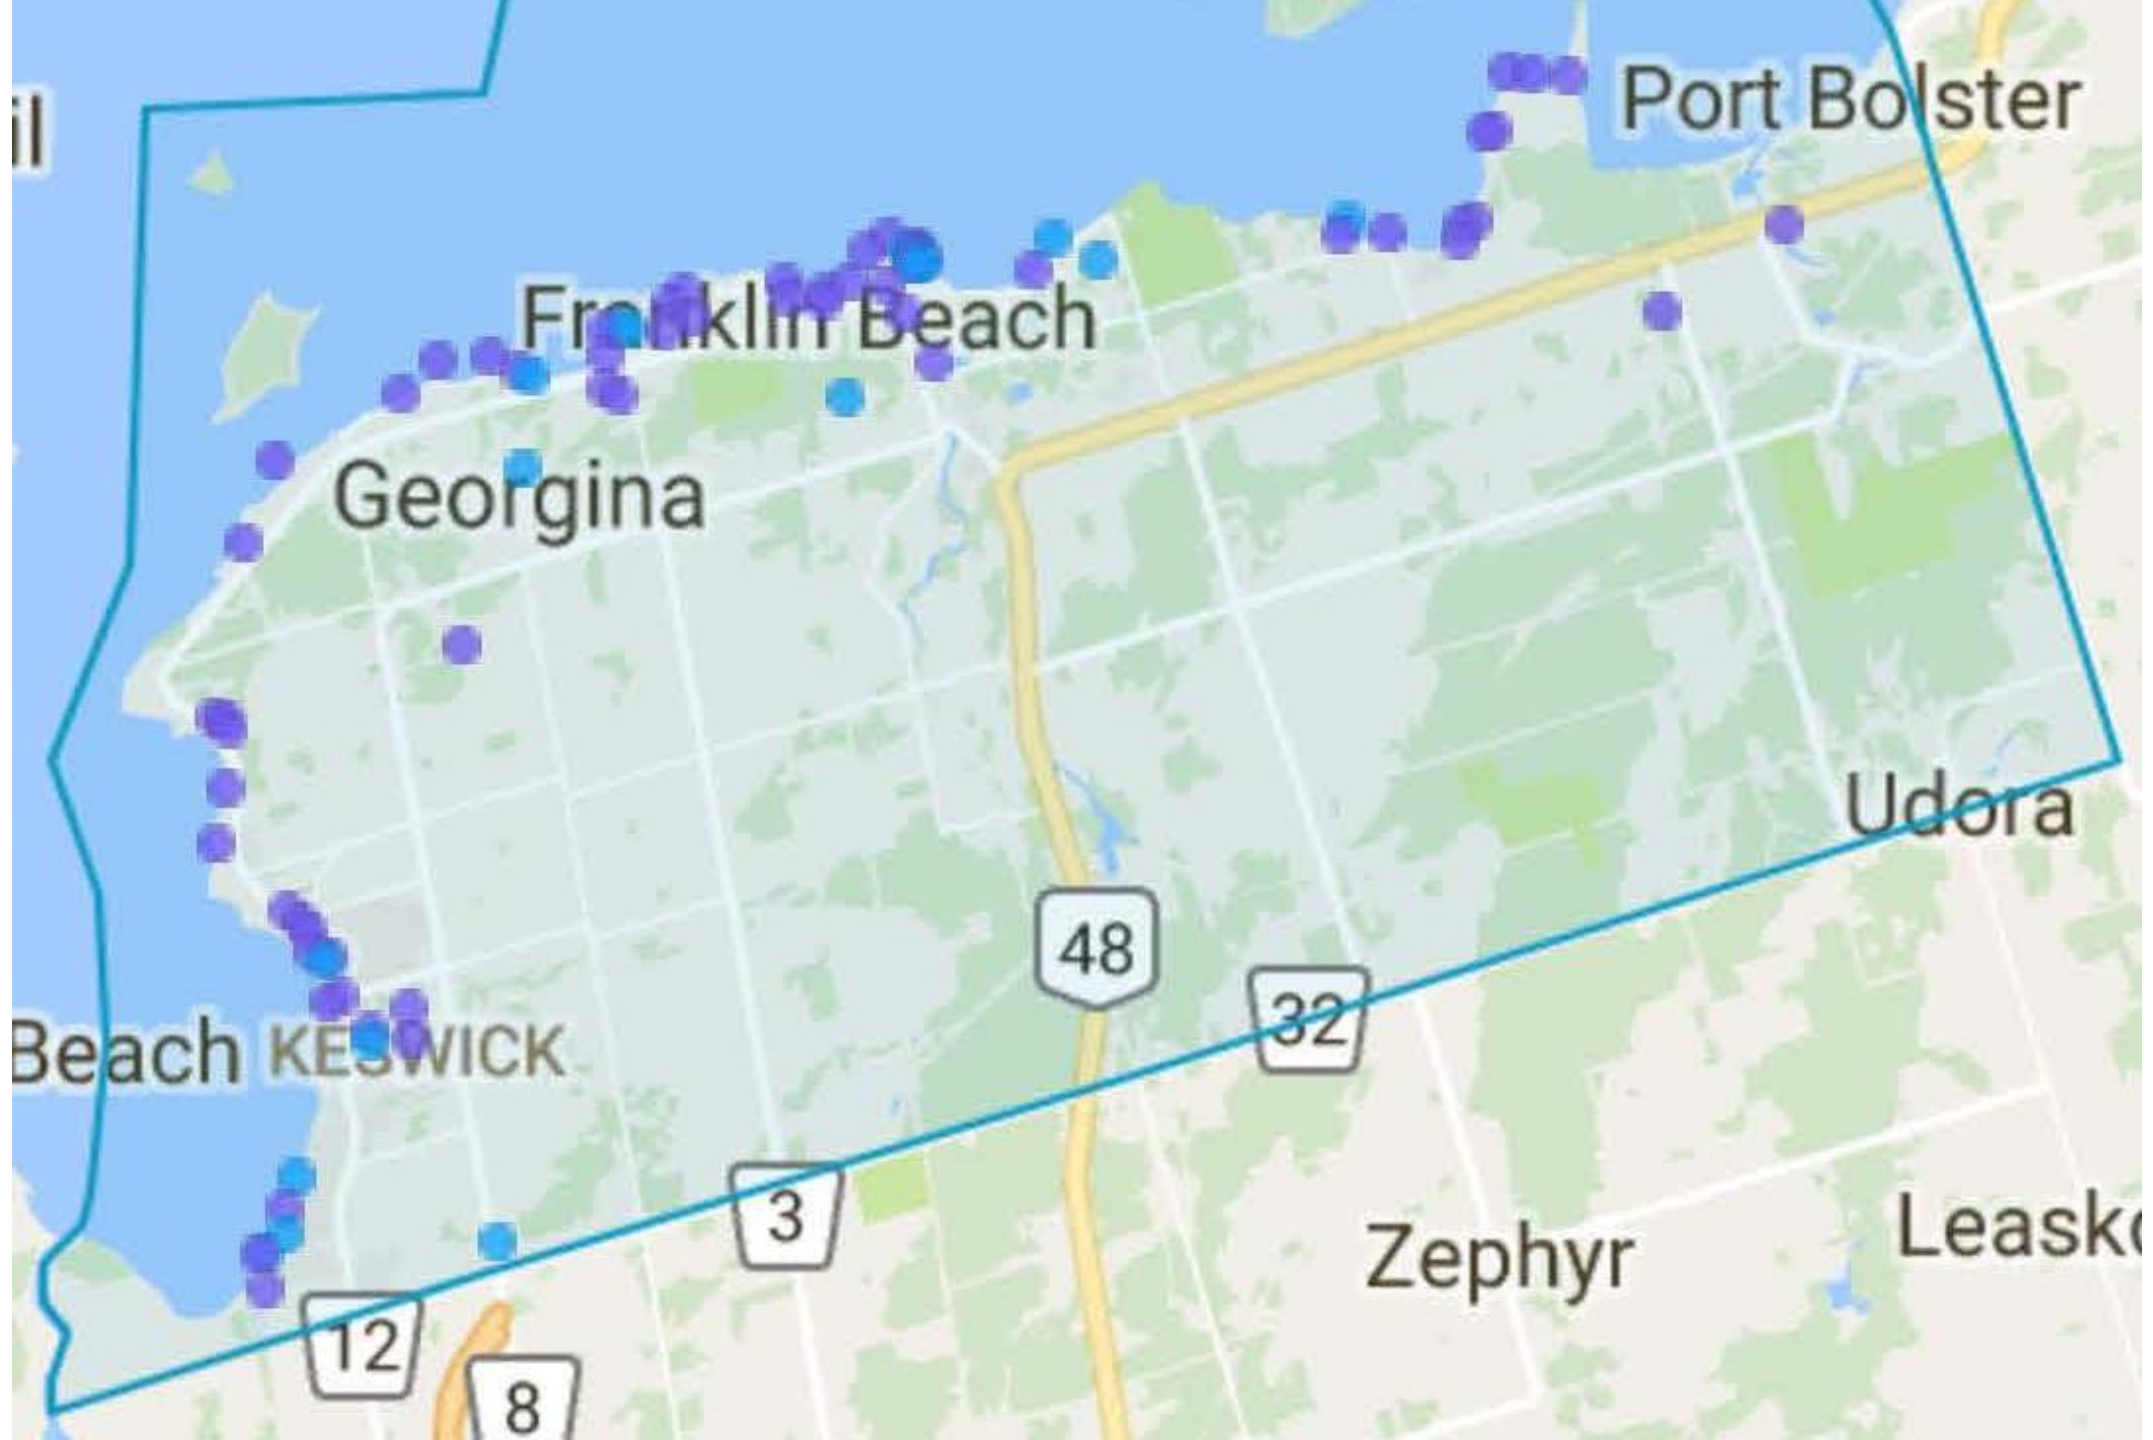

“*The ‘sharing economy’ refers to people using online platforms to sell or rent underutilized property, goods, or services and rating each other’s trustworthiness through online reputation systems.*”

STRA Definition

- Means a building or structure or any part thereof that operates or offers a place of temporary residence, lodging or occupancy by way of concession, permit, lease, licence, rental agreement or similar commercial arrangement for any period equal to or less than thirty (30) consecutive calendar days, throughout all or any part of the calendar year, unless otherwise prohibited by Zoning By-law 500, or any other by-law of the Town of Georgina.
- Short-term Rental Accommodation uses shall not include a hotel, motel, motor hotel, nursing home, private or public hospital, temporary accommodations for seasonal farm workers, a recreational vehicle park, a tent campground, or similar commercial or institutional use.
(Hybrid of Towns of Oakville and Town of the Blue Mountains, and proposed TOG Zoning By-law definitions)

STRA in Georgina

- STRA has been active in the Town of Georgina since the first vacation homes were built in the former Township of Georgina, Township of North Gwillimbury and Village of Sutton. Prior to the internet, vacation rentals were conducted through newspaper advertisements, real estate companies and by word of mouth.
